

02 Create a new BIBFRAME Instance from scratch for the Work we created

Yoel Kortick
Senior Librarian

In this exercise we will create a BIBFRAME Instance and connect it to the Work we already created.

ONE

Access the "Catalog BIBFRAME records" page at "Resources > Cataloging > Catalog BIBFRAME Records"

TWO

Create a new record via the link on the top right

THREE

Create an Instance from scratch.

Catalog BIBFRAME Record

Select Class
Instance

Create from Template Create Blank

Select Sub Class
Select a value

Cancel Catalog

FOUR

Choose one or more Sub Classes and then click "Catalog". We will choose Sub Class "Printed".

Catalog BIBFRAME Record

Select Class
Instance

Create from Template Create Blank

Select Sub Class
Printed

Cancel Catalog

FIVE

Fill in the title. We are making the title of the Instance be the same as the title of the Work

Title resource - Title entity

Main title
BIBFRAME Webinars for advanced users

SIX

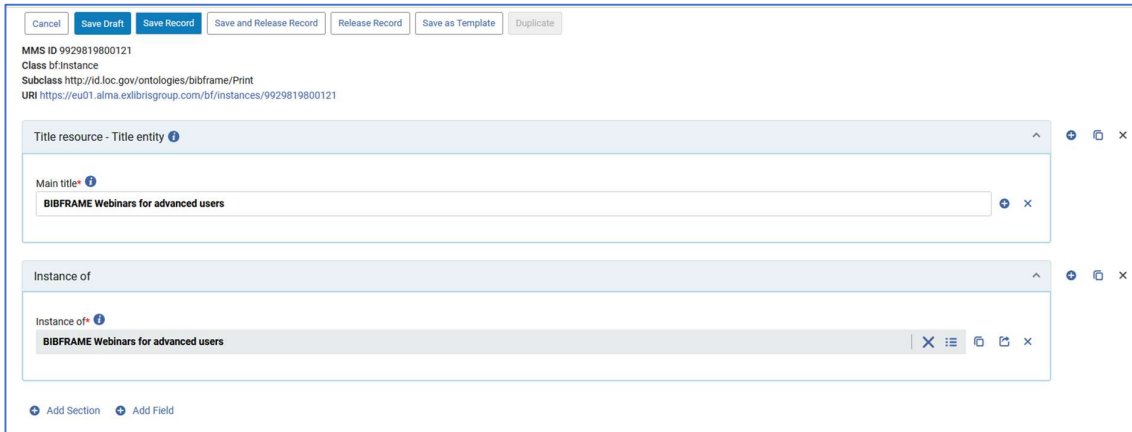

Connect this new Instance to the Work we already created.

Click the Lookup for the "Instance of" field and then search for and choose the Work which we already made.

SEVEN

Now have the title and the Instance of filled in.

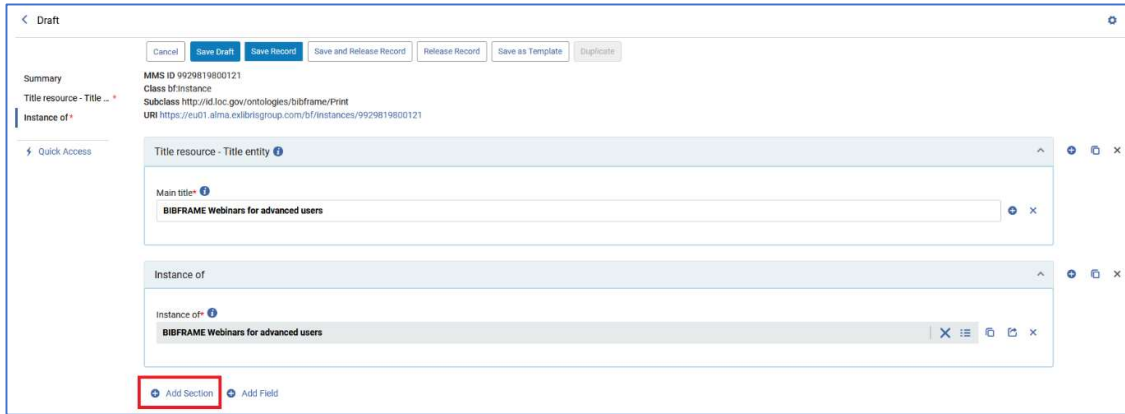

EIGHT

We will now do as follows:

- Add section "Provision activity - Provider entity" with the following fields:
 - Date
 - Place
 - Agent (publisher)
- Add standalone field "Media type" with value "unmediated" (code "n")
- Add standalone field "Carrier type" with value "volume" (code "nc")

NINE

Click "Add Section" on the bottom.

We will now add section "Provision activity - Provider entity". When prompted after clicking "Add Section" fill in:

- Property = Provision activity
- Class: Provider entity

and then click "Add"

Within the new section click "Add Field"

Add these fields to the section:

- Date
- Place
- Agent

First add "Date"

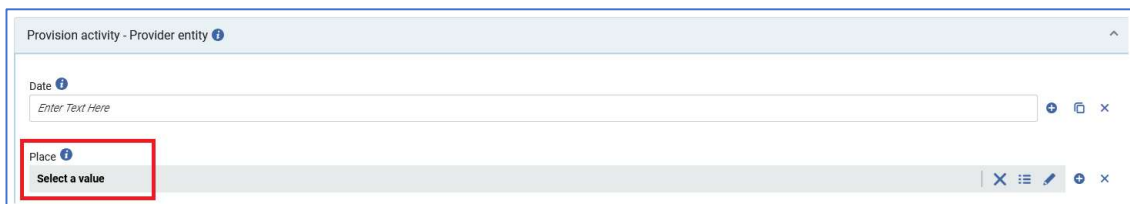

Within the new section click "Add Field" to the right of "Date"

Add "Place". When choosing "Place" if it appears twice choose the first option

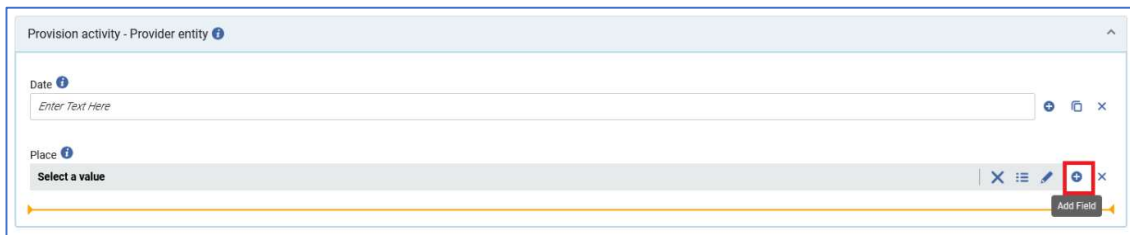

A search dropdown menu with a search bar at the top containing the text "Search...". Below the search bar, a list of options is displayed: "Part", "Place", "Place", "Preceded by", and "Preferred citation". The first "Place" option is highlighted with a red rectangular box.

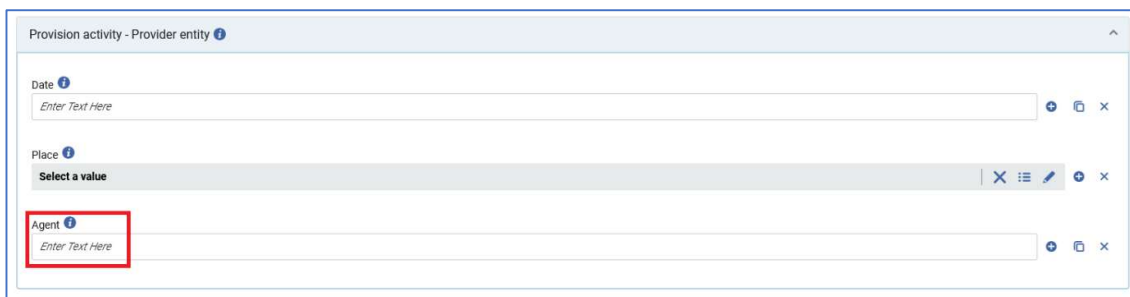

A screenshot of a "Provision activity - Provider entity" form. It contains a "Date" field with the placeholder text "Enter Text Here" and a "Place" field with the placeholder text "Select a value". The "Place" field is highlighted with a red rectangular box. To the right of the "Place" field, there are icons for deleting, listing, editing, and adding fields.

Add "Agent"

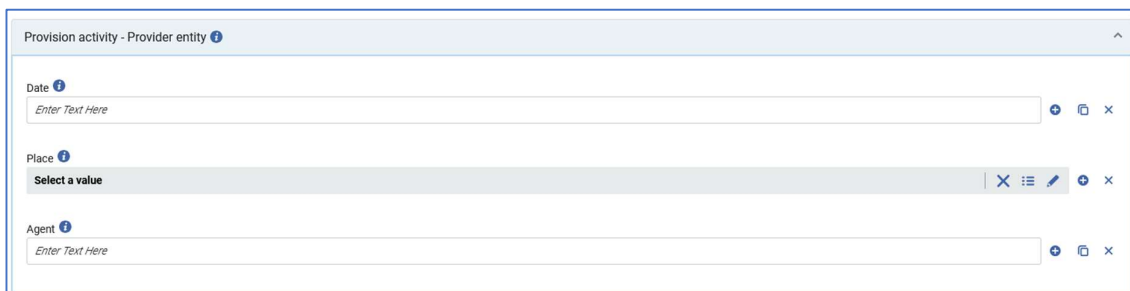

A screenshot of the "Provision activity - Provider entity" form. It contains a "Date" field with the placeholder text "Enter Text Here" and a "Place" field with the placeholder text "Select a value". A yellow arrow points to the "Add Field" button, which is highlighted with a red rectangular box. The "Add Field" button is located at the bottom right of the form.

A screenshot of the "Provision activity - Provider entity" form. It contains a "Date" field with the placeholder text "Enter Text Here", a "Place" field with the placeholder text "Select a value", and a new "Agent" field with the placeholder text "Enter Text Here". The "Agent" field is highlighted with a red rectangular box.

We have now completed adding the section:

A screenshot of the "Provision activity - Provider entity" form. It contains a "Date" field with the placeholder text "Enter Text Here", a "Place" field with the placeholder text "Select a value", and an "Agent" field with the placeholder text "Enter Text Here".

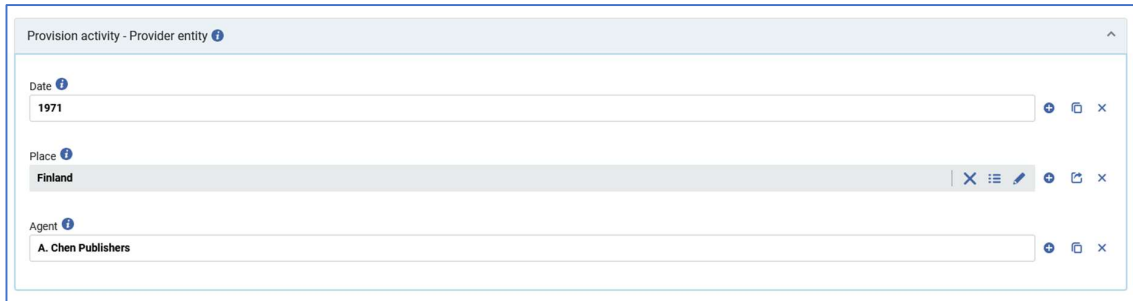

TEN

Fill in the fields of the section as follows:

Date: Whatever you want. Below we fill in "1971"

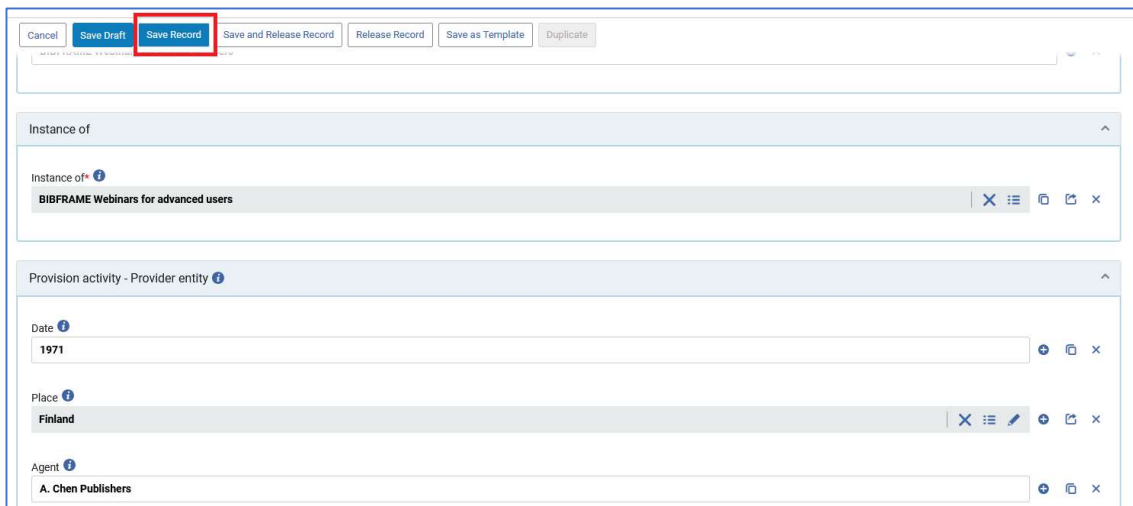

Place: Use the lookup and choose whatever you want. Below we use "Finland"

Agent: Whatever you want. Below we fill in "A. Chen Publishers"

ELEVEN

Even though we will continue editing the record we will save it now then continue editing. On the top click "Save record" and get message that record was saved.

TWELVE

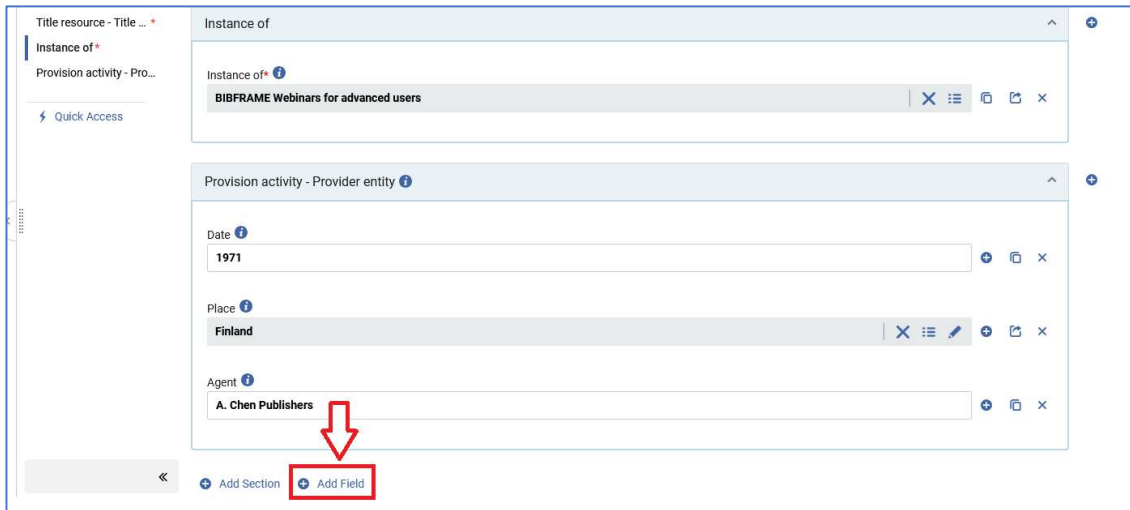

Edit the record by clicking the pencil

THIRTEEN

Add standalone field "Media type".

Click "Add Field" on the bottom and choose "Media Type" and click "Add"

FOURTEEN

Add standalone field "Carrier type".

Click "Add Field" on the bottom and choose "Carrier Type" and click "Add"

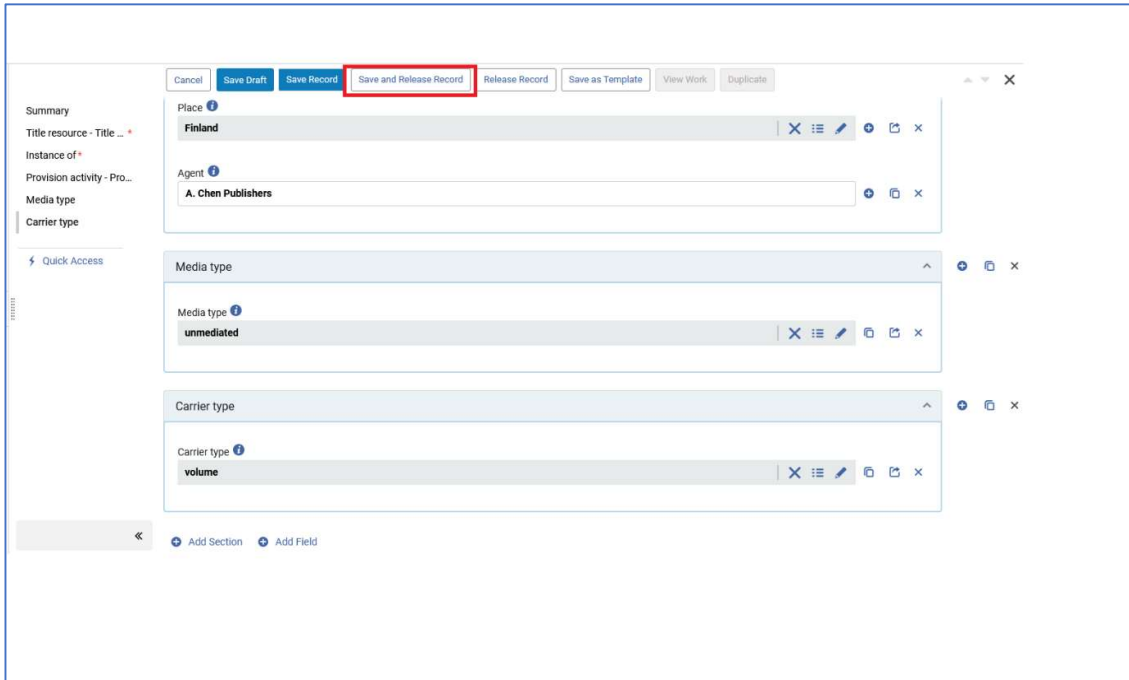

FIFTEEN

Add value "unmediated" (code "n") to standalone field "Media type". Use the lookup.

Add value "volume" (code "nc") to standalone field "Carrier type". Use the lookup.

SIXTEEN

Save and release the record

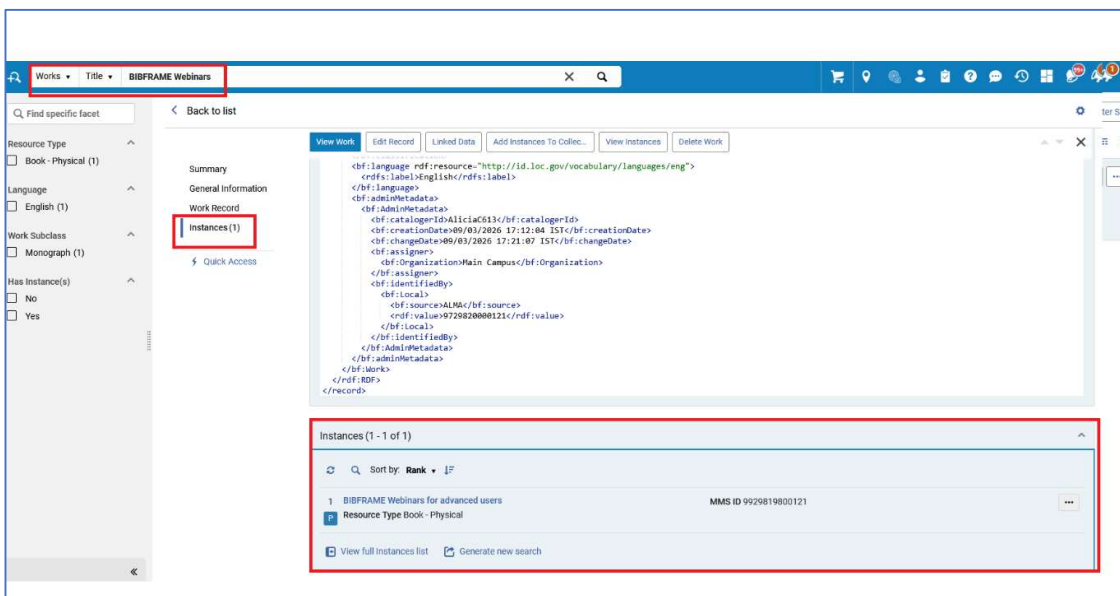

SEVENTEEN

Search for the new Instance and confirm that it can be found

EIGHTEEN

Search for the **Work** and see that it is connected to the Instance

Exercise complete
